

**Model A: The explanatory power of civilian deaths
(SPSS output)**

Model Summary^b

Model	R	R Square	Adjusted R Square	Std. Error of the Estimate
1	.653 ^a	.426	.415	50800981.996

a. Predictors: (Constant), deaths

b. Dependent Variable: protection_usd

Coefficients^a

Model	Unstandardized Coefficients		Standardized Coefficients	t	Sig.	95.0% Confidence Interval for B	
	B	Std. Error	Beta			Lower Bound	Upper Bound
1 (Constant)	16635774.488	7648423.883		2.175	.034	1288089.140	31983459.837
deaths	12642.592	2033.883	.653	6.216	.000	8561.307	16723.877

a. Dependent Variable: protection_usd
